

Riceland Innovation: System of Rice Intensification (SRI) Method Introduction

Duration: 2022 - 2024

Host Institution: TEBTEBBA Foundation

Project Description

Tebtebba is an indigenous peoples' organization and a research, education, policy advocacy and resource center working with indigenous peoples at all levels and areas. They seek the recognition, promotion and protection of indigenous peoples' rights and aspirations while building unions to uphold social and environmental justice and sustainability. Tebtebba's activities are to reinforce the capacities of indigenous peoples specifically on research, education, training, and institutional development. For this project, TEBTEBBA hopes to provide support in training IPs on Riceland Innovation using the SRI Method of Application
