

Development Innovations and Policy Laboratory: Capacity Building Toward Innovative and Inclusive Policymaking for Development in the AANR Sector

Duration: 2022 – 2024

Host Institution: University of the Philippines Los Baños

Project Description

The project will develop a hub for capacity building, public engagement activities and delivery of technical advisory services in support of an inclusive evidence-based policy analysis and formulation. It will create a database for knowledge resources in the AANR policy areas, package training courses that will strengthen capacities in bringing evidence closer to policy making, host collaborative learning and policy design co-creation activities, and cultivate policy discourses.
