

Virology and Vaccine Institute of the Philippines (VIP)

Duration: 2021 -2024

Host Institution: DOST - Industrial Technology Development Institute (ITDI)

Project Description

VIP is a DOST program with ITDI as the lead implementing agency. The program is about establishing the Virology and Vaccine Institute Philippines (VIP) with the primary goal of developing diagnostics, vaccines, and therapeutics. It will be the premier research and development institute in the field of virology, encompassing all areas of viruses and viral diseases in humans, plants, and animals. It is also envisioned as a sustainable approach by the country against other possible emerging, re-emerging, and novel viruses that may arise in the future.

Experts Needed

- Virologist
- Microbiologists
- Epidemiologists
- Medical Technologists
- Molecular Biologists
- Biochemists
- Clinicians and Medical Doctors
- Biologists
- Biostatisticians
- Geneticist
- Communication Specialists
- Social Scientists
